Skin Rejuvenation

Sale

The closest you will get to a facelift - without knives, needles and a four figure bill!

- Is your skin lacking in lustre?
- Do you have unwanted marks?
- Fine lines?
- Red Veins?

This is your LAST CHANCE this year - before spring and while the sun rays are still low. Winter is the right time to consider brightening, plumping and / or removal pigmentation and red veins on your face.

Using IPL to encourage the production of collagen and elastin, we can freshen up your skins tone and texture, even out the colour and focus on any unwanted pigmentation and/or red veins. This treatment is also wonderful to help iron out fine lines and for the overall firmness of your skin, leaving you well prepared for summer. Your friends will ask you if you have had a face lift.

Save **\$500** on our IPL Rejuvenation sale:

Full Face Rejuvenation / Pigmentation or red vein treatment two treatment package - for only \$299 per treatment, saving \$100 per treatment and receive the following two treatments complimentary:

1 x Microdermabrasion treatment (this is done 1 x week prior to your first IPL session) This will gently remove the top surface layers of your skin, best preparing your skin for your IPL treatments to maximise the results. (Value \$150.00)

1 x AVT (Active Vitamin Therapy Facial) 1 week after your second IPL treatment, we will use a galvanic current through Environ's DF Machine to infuse concentrated Vitamin A and C into the deeper layers of your skin, leaving your skin brighter, firmer and glowing. (Value \$150.00)

Package completed over two months.

Total \$598 and save \$500

Complimentary \$10 Voucher

OK we know you reward yourself each time you come into All About You, but now you can also reward your wallet. Each visit when you spend \$50 or more on

services you will receive a \$10 voucher for spending on any service. Available from 17 August.

Micro-needling

Roll away those fine lines and scars through collagen induction therapy. Dermal rollers are a revolutionary treatment used to stimulate collagen and elastin production without causing any injury. Scars, wrinkles, stretch marks and uneven skin all have a lack of collagen as a cause. Using a dermal roller to encourage collagen production can help prevent or reverse their formation?

Use three to five times per week will see the following beneficial effects:

- * Reduction in the appearance of scars
- * Reduction of the appearance of fine lines and wrinkles
- * Increased effect of treatment products

Ask in clinic about our new Dermatech **Micro-needle kit** so you can continue your skin care at home for free!

Callus PEEL

The blade-free solution for heel and toe calluses

A source of great embarrassment and discomfort for many people, cracked heels are among the most common of minor complaints of the feet. Now there's a breakthrough innovation to provide a safe solution for the treatment of

rough, callused feet.

CALLUS PEEL is a four-step professional salon system that sorts out thickened heel and toe calluses in just 15 minutes. It's a process that can be added to your regular pedicure or as a stand alone treatment to deliver results like you've never seen before.

- Unique, intensive treatment.
- Rich, moisturising formula penetrates deep into hardened skin.
- Nourishes and smoothes tough skin without irritation.
- Breaks down calluses in just 10 minutes, then file and buff away.
- The easiest and most convenient way to remove tough calluses.
