NEW from Dermatech

FANTASTIC BOOST FOR YOUR SKIN

Want a fresh, fabulous face this spring that you can perfect at home? Use the new Dermatech C15 Serum and micro-needling to reduce the appearance of uneven skin tone, blemishes and improve fine lines and wrinkles.

Studies show that micro-needling naturally stimulates collagen production and increases cellular turnover, leading to a healthier, thicker skin with diminished signs of aging. The micro channels also allow 4000% deeper infusion of topical product applications.

The Dermatech C15 Serum contains the most effective form of Vitamin C, which is a free radical scavenger and extremely important in the formation of collagen, as well as Hyaluronic Acid, a highly effective humectant which can hold hundreds of times its weight in water to hydrate the skin.

Treat yourself to a NEW Collagen Induction Facial this spring!

Each facial includes a Glycolic Peel, Collagen Micro-needle treatment with Vitamin C and a 20 minute Clearlight. Normally \$200.00 (when you bring in your micro-needle kit) or \$250.00 (which includes a micro-needle kit).
